Subject: FYI - Significant Project Underway starting next week

Skip, Susan, and Jeff,

Thought I would share with you the fact that our lab will be involved in the Dimock GW site project that begins next week. High volume of analysis involving almost every Lab branch analyst and we may need to work weekends (starting next weekend). I'll be sure to keep you posted on who needs access. I'm in Friday if you have any further questions.

Cindy
